

December 2018

Dear NDA Families:

NDA participates in the Wisconsin Parental Choice Program (WPCP). The Wisconsin Department of Public Instruction issues School Report Cards on each participating CHOICE school. Schools that participate are required to post the DPI Report Card on their school home webpage within 30 days of the public release of school report cards by the DPI. Please find a link to our NDA School Report online at the following address: <https://apps2.dpi.wi.gov/reportcards/> (Select Private School and then select the School you wish to view.)

Also, another document required to be publicized is the Educational Options Information from the Department of Public Instruction as well. This link is as follows: <http://dpi.wi.gov/ed-options>

However, there are a few important notes to consider:

- NDA is reported as NOT RATED or NO SCORE on the School Report Cards. However, we are still obligated to publish the Report Cards even with a NOT RATED SCORE.
- Because we have too few students taking the state assessment, a meaningful school report card cannot be generated.
- NDA utilizes the ACT Suite of Assessments and Star 360 to measure, track and report student growth.

Should you have any questions related to the CHOICE Accountability Report, feel free to contact our NDA Outreach Administrator, Karen Knop at kkonop@notredameacademy.com.

God Bless,

Patrick Browne
Principal
Notre Dame Academy
